## **DETAILED ACTION**

### ***Response to Amendment After Final***

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Reasons for Allowance***

2. Claims 1-27 and 41 are allowed (renumbered as 1-28, respectively).

The following is an examiner's statement of reasons for allowance:

This application is for a METHOD FOR PRODUCING A TRANSDUCER SLIDER WITH TAPERED EDGES.

Claim 1 specifies a method for producing a transducer slider having at least one tapered edge, which requires "wherein the predetermined surface profile contains no exposed sharp edge which might contact a disk surface when the transducer slider is in use." The closest prior art of record, Zheng et al. (hereinafter Zheng) (US 6,870,707 B1), discloses in Figs. 3A-E and 4A-C a method for producing a transducer slider having at least one tapered edge but does not exemplify the predetermined surface profile contains no exposed sharp edge which might contact a disk surface when the transducer slider is in use as claimed in the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
